Summary

I am a highly motivated B.Tech Computer Science student with a strong foundation in frontend web development (HTML, CSS, JavaScript) and a growing skillset in React and backend technologies. Driven by a passion for solving real-world problems, I'm actively honing my skills in DSA, and have entry level cybersecurity knowledge, complemented by proficiency in leveraging Generative AI tools for enhanced productivity. I am seeking dynamic opportunities to apply my fast-learning ability, adaptability, and collaborative spirit to contribute to innovative projects and gain valuable industry experience.

Education

Dayananda Sagar University | Bangalore
B.Tech in Computer Science Engineering | August 2022 - August 2026
Focused on expanding core computer science concepts, development skills, and practical applications through both academic and project-based learning.

Technical Skills

Languages: HTML, CSS (Flexbox, Grid), JavaScript, SQL, Python, C (intermediate), Shell Scripting
Frameworks/Libraries: Bootstrap, React (learning)
Tools/Platforms: Git & GitHub, Linux Basics, Generative AI Tools, Maltego, Social Engineering Toolkit (SET)

Key Competencies

- Problem Solving | Adaptability | Team Collaboration | Communication | Debugging
- UI/UX Awareness | Computer Skills | AI tools |Prompt Engineering
- Fast Learning

Experience:

Cybersecurity & Web Development Projects

- **Maltego Email Threat Investigation:** Investigated malicious activity in email headers using Maltego.
- **Netflix UI Clone:** Built a responsive Netflix homepage using HTML, CSS, JavaScript.
- **Restaurant Landing Page:** Designed a modern static restaurant homepage.
- **Spotify Open Page:** Created a landing page replicating Spotify design.
- **Real Estate Landing Page:** Developed Sunrise Avenue's website front-end.
